The Barclays Tournament

Westchester Country Club - West Course

Course Par Value: 71

Course Yardage: 6,839

Hole	Par	Yards	
1	3	190	A middle-to-long iron tee shot must land on the front of this two-tiered green. A two-putt is good here. It is difficult to make par from the back of the green and over the green could easily spell bogey.
2	4	384	A relatively short par 4 with position being the main goal of the tee shot. You must avoid the bunker on the left and the tree on the right. Hole placement is the determinant of par or birdie with the very front and very back location being the most challenging.
3	4	408	This hole has a severe slope from left to right. A tee shot right of center will often result in a missed fairway and may be blocked by trees on the right side. The approach shot is a blind one to an elevated, two-tiered green that is surrounded by bunkers and thick rough.
4	4	419	This hole begins with an elevated blind tee shot followed by a mid-to-long iron to a hard green. The back to front slope of this green will result in a difficult two-putt from above the hole. Par is a terrific score here.
5	5	575	Players are faced with a somewhat tight landing area, but a tee shot shaped right to left will cut off some yardage and may enable them to go for the green in two. If the approach shot to this three-tiered green is long, a player has a slim chance of getting up and down.
6	3	151	Not a long or difficult par 3, but position is key to having a realistic birdie opportunity. Hole placements are often difficult and the putting surface is full of subtle breaks.
7	4	350	A short par 4 with a narrow landing area and dogleg left. As a result, most players tee off with an iron. The key to this hole is the approach shot to a tricky three-tiered green. It is not unusual to see players land their approach shot on the green just to have them spin right off the front.
8	4	471	One of the most picturesque holes on property ... but don't let its beauty fool you. It is also one of the most challenging. Players must hit the ball at least 235 yards to turn the corner of the dogleg and less than 265 yards to stay out of the water. A mid-to-long iron shot over water still remains before players can catch their breath and hopefully move on with a par. Always one of the most challenging holes TOUR players face all year.
9	5	505	A reachable par 5 but it will take two goods shots to travel the uphill fairway and elevated green. At least 250 yards on the drive is necessary just to reach the fairway. Third-shot approaches will be from an uphill lie to a blind target, with no room for error. The green is two-tiered to add to the challenge. A good birdie opportunity.
10	4	314	Decision time: driver or iron? If the tee placement is up front, it may tempt some players to go for the green, but a steep drop off on the left side and trees right and left block out errant shots and add risk to the scenario. Approach shots long will end up some 25 feet below the surface of the green.
11	4	447	The right decision on the tee is critical on this hole. Power players will have to lay off the driver to stay short of the stream located 255 yards from the tee. A long iron approach shot still remains to a very tight, three-tiered green. Players favor the left side of the green as the area slopes to the right.
18	5	526	An exciting finishing hole requires a long drive to reach the corner of the dogleg. The tee shot must get around the corner and be moving right to left to give a player a chance to go for the green in two. There is deep rough lining the fairway, and the bunker front right collects many second shots leaving a 35-yard sand shot with no room behind a multi-tiered green. The tournament is often won or lost here on Sunday whether in regulation or as the first playoff hole.
